

At Edgehill Health Services, we hear every day that what we do makes a difference.

We wanted to share what people are saying:

When I arrived, I was unable to walk or take care of myself. Within 30 days of my stay, I was completely independent and I walked out on my own. The complete staff deserves an A+ on effort. Thank you with all my heart.

-Donald, former Edgehill Health Services resident

The entire staff over the years has done an exemplary job providing care for Mom, from the nurses and aides to the nutritionists and administrators. We as a family are proud of each and every member of the second-floor staff and are grateful for the friendship experienced with each individual. They should all be commended for their efforts.

- Robert, son of former Edgehill Health Services resident

The skilled nursing staff, led by Rita Lynch, the head administrator, with Sharon Mullen, LPN and Mary Norman, RN, demonstrated a magical blend of competence and compassion. Edgehill's caring and connection comes from the depth of its relationships with residents. These can't be faked and they aren't created overnight.

- Family member of former Edgehill Health Services residents

Although my mom received very good care from all the therapists, nurses and other personnel, I would like to give special thanks to both Denise and Anna. Their nursing skills helped get her through a difficult time. I certainly would recommend Edgehill to anyone in need of rehabilitation.

- Juliana, daughter of former Edgehill Health Services resident

As a family, we were very lucky to have our father living nearby during the last few years of his life. Together with the outstanding care he received from all of you, this provided a quality of life that would not otherwise have been possible. We will always remember the friends we made at Edgehill.
